PRITCHETT RAPS MILITARY TRAINING

Former M. I. T. Head Declares Such Instruction Would Be Worthless in a Crisis.

New York, June 8.—The college is not intended as a place to teach military training, and the modern curriculum does not provide room enough for such instruction in a way which would count in a crisis, Henry S. Pritchett, president of

HOW APPENDICITIS CAN BE PREVENTED

Barre people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Adler-ka, often relieve or prevent appendicitis. This simple mixture removes such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. A short treatment helps chronic stomach trouble. Adler-ka has easiest and most thorough action of anything we ever sold. Cummings & Lewis, druggists, 54 North Main street.—Adv.

the Carnegie Foundation for the Advancement of Teaching, declared yesterday at the New York university commencement exercises.

Mr. Pritchett said further that the "contribution of the land grant colleges to the preparation of a reserve of citizen soldiery was practically negligible." He ridiculed the "assumption of our legislators that military training could be made a by-product of a college course."

Mr. Pritchett declared that many of the land grant colleges made possible by the Morrill act of 1862 continue the required military training only "to obtain the constitutional grant," that others give only the "minimum of military drill," and that "the individual student in many cases seeks to escape his military duties with as scant a performance as possible."

Under this act, he said, 2,000 students received training last year, making a total today of more than 200,000 men between the ages of 19 and 30 years trained in this manner.

There were two things Mr. Pritchett thought that the college could do for the cause of preparedness—first, to put a stop to growing criticism and belittling of the army and navy; and, second, to encourage their graduates to enter a life where they would receive a great "opportunity to minister to the service of men."

MEXICANS START ON RAID. Border Being Strengthened Against de la Rosa, Who is Marching.

San Antonio, Tex., June 8.—General funston has announced that he had what appeared to be positive information that Louis de la Rosa was marching from a point south of Laredo in the direction of the border with the evident intention of raiding somewhere west of Rio Grande City. There are now in that district enough American troops to prevent de la Rosa and his men from crossing. General William A. Mann reported to Funston that he is strengthening the patrol towards the east and to guard Laredo. If de la Rosa and his men reach the Rio Grande before American troops can lead

them off, enough force will be sent against them to drive them back into Mexico, and it was intimated, to run them down on Mexican soil. De la Rosa was one of the leaders of the group that directed the raids west of Brownsville a year ago.

SUFFRAGISTS START DRIVE

20,000 Take Their Resolutions to the G. O. P. Convention

ASK FOR PLANK IN PLATFORM

Antis Are Also on the Job in Chicago Convention

Chicago, June 8.—The outstanding feature of suffragist activity yesterday centers in the parade in which it is expected 20,000 women will march to the Coliseum to present to the Republican national convention the resolution adopted by the National American Woman Suffrage association asking that a plank be put in the Republican platform favoring the enfranchisement of women. Although the parade is in charge of the National Woman Suffrage association, the Congressional Union for Women Suffrage will participate. Approximately 5,000 suffragists from all parts of the United States are here for the demonstration, and they will be joined by large numbers from Chicago.

The resolutions asking for the suffrage plank are to be carried at the head of the parade and into the Coliseum by four women, one from each of the corner states of the union.

Tuesday's heavy rain and showers yesterday morning caused the issuance of the statement from suffrage headquarters that the parade will be held without regard to the weather. The program for the National Woman Suffrage association for yesterday called for a continuance of the assembly at the Princess theatre. The Congressional Union for Women Suffrage also will resume its sessions at Blackstone theatre with a meeting of committees. At Tuesday's session resolutions were adopted expressing the intention of the woman's party to hold responsible "any party which refuses to do justice to women by placing them on a plane of equality with men in the constitution of the United States."

The assembly of the National Woman Suffrage association went on record as opposed to a campaign for an amendment to the federal constitution and adopted a resolution to be presented to the resolutions committee of the Republican convention asking for a plank favoring woman suffrage.

Attempts to prevent the insertion of a suffrage plank in the Republican platform will be made by the National Association Opposed to Woman Suffrage, which has appointed a committee to protest against the introduction of the issue before the convention, according to Mrs. Arthur Dodge of New York.

Mrs. Dodge, president of the anti-suffrage forces, with two members of the association, will appear before the resolution committee to protest against the mention of woman suffrage in the party platform.
